

CANFIELD

COMPREHENSIVE PLAN

growing • together

PLAN OVERVIEW

The Canfield Comprehensive Plan is a holistic guide for the future of growth, development, and quality of life of the community. Rooted in community aspirations and implementable goals, the Plan provides an honest evaluation of present and future needs. The planning process brings together community experts – you! – to establish long-term, multi-faceted goals around the specific strengths, opportunities, and challenges for Canfield. Upon its completion, the Plan will provide immediate action steps on policy, projects, and programs, and will ultimately serve as a road-map to help direct decision making in Canfield for years to come.

USING THE PLAN

Local officials will consult the Plan when making determinations about the community; particularly as it relates to zoning, land use, and development. The plan provides a one-stop shop for understanding local conditions and demographics, as well as long-term, inclusive objectives.

WHO IS INVOLVED?

The Plan framework is founded in community-wide aspirations and shepherded by a steering committee comprised of leaders with local expertise and a passion for the future of Canfield. The steering committee collaborates with a planning team of City employees, hired consultants, and the general public to ensure final recommendations properly reflect the Canfield community.
